## Message From Chairman

नमस्ते शारदे देवि सरस्वती मति प्रदे ।  
वसं त्वं मम जिह्वाग्रे सर्व विद्या प्रदा भव ॥

Jay Hind,  
“Education is the most powerful weapon which you can use to change the world”

It gives me an immense sense of happiness and honour to announce that Freedom Valley School is all set with enthusiasm and commitment to providing an all-around quality education to the young and budding learners. I look forward to engaging students, educators, families and the general public by creating meaningful, applied learning experiences which can lead to increasing literacy to the benefit of the nation as a whole.

Children need to be exposed to and participate in interactive and scenarios that will harness their curiosity and motivate and inspire them to investigate the world around them. We aim at providing young people with continuous opportunities to develop their talents and demonstrate what they know and can learn. Each child's untapped potential is waiting to be unleashed.

I would request all the parents to inculcate self-discipline in their children and spend some quality time with them, to support them in independent decision making and help them identify their innate skills and talents.

I would expect my teachers and faculty to prepare students to be creative thinkers who are able to reason, solve problems and create new knowledge to enable them to follow any path they might choose as they become tomorrow's citizens. The most valuable skill that you can sell is your knowledge and good education is a pre-requisite for it. So I would say to all children to be good learners and be focused, ambitious and be the best of whatever you are.

Wishing everyone great success!

Best wishes,  
**Hiren Patel** (Chairman SGGT)

Freedom Valley School's initiative to start reading early and explore knowledge in the library from 3rd standard is commendable. Reading is indeed a powerful activity that enriches young minds in numerous ways. Reading requires focus, which helps children develop concentration skills. Exposure to diverse vocabulary through books expands their word bank. Reading exposes children to different writing styles, genres, and imaginative worlds. It encourages them to think creatively and express themselves effectively. Books introduce children to various cultures, historical events, and perspectives. They gain empathy and a deeper understanding of the world beyond their immediate surroundings. Reading enhances language fluency, grammar, and communication. Discussing books and sharing opinions boosts confidence in expressing ideas. Analyzing plots, characters, and solving mysteries in stories sharpens critical thinking. Remembering details from books exercises memory. Encouraging students to write their own books fosters creativity and self-expression. It empowers them to become storytellers and creators.

### NCC Activity

Mr. Hemant Yagnik, the Head of Intrinsic Force of India (IFI), along with his dedicated team, has taken a commendable initiative to guide our young and enthusiastic students participating in IFI's NCC Activity. The focus of the day was on the art of rifle shooting, and it's heartening to share that 151 students and our teachers actively participated in this enriching experience right here at our school. As we celebrate the auspicious days of Navratri, during which we revere Goddess Durga, the embodiment of supreme energy, these lessons of bravery and courage couldn't have come at a more fitting time. We firmly believe that the skills our students gain in the realm of rifle shooting will not only build confidence but also instill a deep sense of duty towards our beloved nation. ### Bridging Donations from Parents to Tribals through Non-teaching staff of Freedom Valley School, Bardoli."

An eventful day unfolded yesterday as the non-teaching staff of our school embarked on a refreshing picnic to the serene locales of Gomukh & Shabari Dham. The excursion was not only a break from routine but also served a noble purpose, as acts of charity and kindness were at the heart of this outing.

During the event, our school students and parents exemplified the spirit of giving by donating essential items to the adivasi people. Rice, lentils, biscuits, and toys were generously contributed, reflecting the compassionate nature of our school community. These offerings were not just material in nature; they carried with them the message of solidarity and support for the underprivileged.

The non-teaching staff took on the responsibility of distributing these charitable donations to the residents of Ahwa Dang. This act of selflessness ensured that the gifts reached those who needed them the most. The children and underprivileged members of the community were the direct beneficiaries of this gesture, and their smiles and gratitude were a testament to the impact of the collective effort. Moreover, the spirit of giving extended beyond the immediate vicinity. Biscuits and grains were also donated to the 'Uttar Buniyadi Schools', spreading the benefits of this charitable initiative even further. The ripple effect of these contributions has the potential to make a positive change in the lives of many.

We extend our heartfelt appreciation to all the parents and students who wholeheartedly participated in this act of charity. Their generosity and empathy will undoubtedly attract blessings, especially during the auspicious month of Shravan Purushottam Month. The giving nature displayed during this time holds the promise of showering abundant blessings on the kind-hearted donors
